## **Independent Auditor’s Report**

### **To The Members of Indiabulls Commercial Credit Limited**

### **Report on the Audit of the Financial Statements**

#### **Opinion**

We have audited the accompanying financial statements of Indiabulls Commercial Credit Limited (the “Company”), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the “Financial Statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 (the “Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit of the financial statements in accordance with the Standards on Auditing (“SA”)s specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (“ICAI”) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

#### **Emphasis of matter**

We draw attention to Note 7 to the accompanying Financial Statements which describes the effects of uncertainties relating to COVID – 19 pandemic outbreak on the Company’s operations, that are dependent upon future developments, and the impact thereof on the Company’s estimates of impairment of loans to customers outstanding as at March 31, 2022, and that such estimates may be affected by the severity and duration of the pandemic. Our opinion is not modified in respect of this matter.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements for the financial year ended March 31, 2022. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Financial Statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Financial Statements.

Key Audit Matters	Auditor's Response
<p>a) Impairment of Loans (expected credit loss - ECL) (Refer note 7 to the Financial Statements)</p> <p>In accordance with the requirements of Ind AS 109, the Company is required to provide for impairment of its financial assets using the expected credit loss ('ECL') approach which involves an estimation of the probability of loss on the financial assets over their life, considering reasonable and supportable information about past events, current conditions and forecasts of future economic conditions which could impact the credit quality of the Company's loans and advances. In the process, a significant degree of judgement has been applied by the management in respect of following matters:</p> <p>(i) Classification and staging of loan portfolio, and estimation of behavioural life.</p> <p>(ii) Estimation of losses in respect of those classes of loans which had no or minimal historical defaults.</p> <p>(iii) Management overlay for macro-economic factors and the impact of CoVID -19 pandemic and estimation of their impact on the credit quality of the loans. In accordance with the guidance in Ind AS 109, the management overlay estimate takes into account reasonably and supportable information without incurring significant cost. The actual credit losses for the next 12 months could be significantly different than the ECL estimates prepared by the Company depending upon the impact and duration of the pandemic and various regulatory and policy measures announced by the Government.</p> <p>(iv) Further, the Company has restructured loans on account of COVID-19 related regulatory measures. This has resulted in increased management estimation over determination of provision for such restructured loans.</p> <p>(v) The disclosures (including disclosures prescribed by RBI) regarding the Company's application of Ind AS 109 are key to explaining the key judgements and material inputs to the Ind AS 109 ECL results.</p>	<p>Principal Audit Procedures</p> <ul style="list-style-type: none"> <li>• Read and assessed the Company's accounting policies for the process of estimation of impairment of financial assets and whether such policy was in accordance with the requirements of Ind AS 109 and the governance framework approved by the Board of Directors pursuant to the applicable Reserve Bank of India guidelines/directions.</li> <li>• Evaluated the appropriateness of the Company's assumptions used by the Company for grouping and staging of loan portfolio into various categories and default buckets and their appropriateness for determining the probability of default (PD) and loss-given default (LGD) rates.</li> <li>• Tested the operating effectiveness of the controls for application of the staging criteria. Assessed the additional considerations applied by the Management for staging of loans.</li> <li>• Performed tests (on sample basis) to verify the completeness and accuracy of the input data used to determine the PD and LGD rates and agreed such data with the underlying books of accounts and records.</li> <li>• Performed inquiries with the Company's management to assess the impact of COVID-19 on the current economic environment and business activities of the Company.</li> <li>• Tested the arithmetical accuracy of calculation of the provision for ECL performed by the Company.</li> </ul>

Key Audit Matters	Auditor's Response
<p>a) Impairment of Loans (expected credit loss - ECL) (Refer note 7 to the Financial Statements) (continued)</p> <p>The Company has developed a financial model that derives key assumptions used within the provision calculation such as probability of default (PD) and loss given default (LGD). The output of such model is then applied to the calculation for the provision for expected credit loss calculation with other information including the exposure at default (EAD).</p> <p>Given the high degree of management's judgement involved in estimation of ECL, it is an area of material uncertainty and a key audit matter.</p>	<ul style="list-style-type: none"> <li>• Tested assumptions used by the management in determining the overlay for macro-economic factors (including CoVID-19 pandemic)</li> <li>• Tested key controls and details over restructuring process in respect of eligibility, approval and modification of terms.</li> <li>• Assessed the appropriateness and sufficiency of disclosures in the Financial Statements in respect of provision for ECL.</li> </ul>
<p>b) De-recognition of financial assets (Refer Notes 7 and 41 to the Financial Statements)</p> <p>The Company has, during the year ended March 31, 2022, assigned loans amounting to Rs. 1,742.65 crores for managing its funding requirements and recorded net income of Rs. 19.07 crores in the Statement of Profit and Loss. In accordance with Ind AS 109, de-recognition of financial assets (loans) transferred by the Company through assignment is based on the 'risk and reward' model and a 'control' model. In case de-recognition criteria are met, the financial assets assigned are de-recognized and difference between carrying value and consideration including the present value of interest payments that it would not give up (excess interest spread (EIS) receivable) is recognized as income in the Statement of Profit and Loss for the year.</p> <p>The Company also records a servicing asset and servicing liability at their fair value for the right retained for servicing the financial asset for the service contract and the related costs to be incurred.</p> <p>The assessment of derecognition criteria being met involves significant judgements and furthermore the measurement of the related EIS receivable income, servicing asset and liability requires significant estimates to be made with respect to the discount rate, expected portfolio life, prepayment and foreclosures. Given the complexity and the volume of such transactions the same has been considered a key audit matter.</p>	<p>Principal audit procedures</p> <ul style="list-style-type: none"> <li>• Assessed (on sample basis) assignment agreements to evaluate whether the de-recognition criteria have been met.</li> <li>• Assessed the significant estimates and judgments, including the discount rate and expected remaining life of the portfolio transferred used by the Company for computation of excess interest spread receivable, servicing asset and servicing liability.</li> <li>• Tested the arithmetical accuracy of computation of the excess interest spread receivable, servicing asset and servicing liability.</li> <li>• Assessed the disclosures included in the Financial Statements with respect to de-recognition in accordance with the requirements of Ind AS 109 and Ind AS 107.</li> </ul>

## **Information Other than the Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **Management's Responsibilities for the Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Other Matters**

The Company's financial statements for the year ended March 31, 2021 prepared in accordance with Ind AS were audited by the predecessor auditor whose audit report dated May 19, 2021 expressed an unmodified opinion on those financial statements. Our opinion is not modified in respect of the above matter.

## Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
  - d) In our opinion, the aforesaid Financial Statements comply with the Ind AS specified under Section 133 of the Act.
  - e) On the basis of the written representations received from the directors as on March 31,2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act.
  - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure A”. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company’s internal financial controls over financial reporting.
  - g) In our opinion and to the best of our information and according to the explanations given to us, the Company has paid remuneration to its managing director during the year in accordance with the provisions of and limits laid down under Section 197 read with Schedule V to the Act.
  - h) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
    - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 32 to the Financial Statements.
    - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
    - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
    - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
  - (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. As stated in Note 21 to the Financial Statements
- (a) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.
2. As required by the Companies (Auditor’s Report) Order, 2020 (the “Order”) issued by the Central Government in terms of Section 143(11) of the Act, we give in “Annexure B” a statement on the matters specified in paragraphs 3 and 4 of the Order.

**ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT  
(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’  
section of our report to the Members of Indiabulls Commercial Credit Limited of even date)**

**Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the “Act”)**

We have audited the internal financial controls over financial reporting of Indiabulls Commercial Credit Limited (the “Company”) as of March 31, 2022 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

**Management’s Responsibility for Internal Financial Controls**

The Management of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditor’s Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

## **ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT**

**(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Indiabulls Commercial Credit Limited of even date)**

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

- i. In respect of the Company's property, plant and equipment and intangible assets:
  - (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and assets held for sale.
  - (B) The Company has maintained proper records showing full particulars of intangible assets.
  - (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its property, plant and equipment and assets held for sale by which all property, plant and equipment and assets held for sale are verified in a phased manner over a period of three years. In accordance with this programme, certain property, plant and equipment and assets held for sale were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
  - (c) Based on our examination of the property tax receipts and lease agreement for land registered sale deed / transfer deed / conveyance deed provided to us, we report that, the title in respect of immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in the Financial Statements included under property, plant and equipment and assets held for sale are held in the name of the Company as at the balance sheet date.
  - (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its property, plant and equipment (including right of use assets) or intangible assets or both during the year.
  - (e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- ii.
  - (a) The Company is engaged in the business of a non-banking finance company and does not hold any physical inventory. Accordingly, reporting under clause 3(ii)(a) of the Order is not applicable.
  - (b) The Company has been sanctioned working capital limits in excess of Rs. five crores, in aggregate, during the year, from a bank on the basis of security of current assets of the Company. In our opinion and according to the information and explanations given to us, the quarterly returns or statements filed by the Company with such banks are in agreement with the unaudited books of account of the Company of the respective quarters and no material discrepancies have been observed.
- iii. During the year, the Company has granted loans or advances in the nature of loans, secured or unsecured to companies, firms, Limited Liability Partnerships or any other parties. The Company has not made any investments in and has not provided any guarantee or security to any other entity during the year. With respect to such loans and advances:

- (a) The Company is registered as a Non-Banking Finance Company engaged in the primary business of financing/ granting loans. Accordingly, reporting under clause 3(iii)(a) of the Order is not applicable.
- (b) According to the information and explanations given to us and based on the audit procedures conducted by us, in our opinion the terms and conditions of the grant of loans and advances in the nature of loans during the year are, prima facie, not prejudicial to the interest of the Company.
- (c) In respect of loans and advances in the nature of loans granted by the Company (together referred to as “loan assets”), the schedule of repayment of principal and payment of interest has been stipulated. Note 3.15 to the Financial Statements, explains the Company's accounting policy relating to impairment of financial assets which include loans assets. In accordance with that policy, read with Notes 7 and 46 to the Financial Statements, loan assets with balances as at March 31, 2022 aggregating Rs. 260.73 crores were categorized as credit impaired (“Stage 3”) and Rs. 3,173.40 crores were categorised as those where the credit risk has increased significantly since initial recognition (“Stage 2”). Disclosures in respect of such loans have been provided in Note 7, read with Note 46, to the Financial Statements. Additionally, out of total loans and advances in the nature of loans, balances as at the year-end aggregating Rs. 7,244.38 crores, where credit risk has not significantly increased since initial recognition were categorized as “Stage 1”. Having regard to the nature of the Company's business and the volume of information involved, it is not practicable to provide an itemized list of loan assets where delinquencies in the repayment of principal and interest have been identified (as suggested in the Guidance Note on CARO 2020, issued by the Institute of Chartered Accountants of India for reporting under this clause). Further, except for loans where there are delays or defaults in repayment of principal and / or payment of interest as at the balance sheet date, in respect of which the Company has disclosed asset classification / staging in note 7 to the Financial Statements in accordance with Indian Accounting Standards (Ind AS) and the applicable directions/ guidelines issued by the Reserve Bank of India, in all other cases, the repayment of principal and interest is regular, as applicable.
- (d) According to the information and explanations given to us and upon consideration of management’s representations and other relevant evidence, and based on the audit procedures conducted by us, in our opinion, the Company, in pursuance of applicable compliances prescribed under the Act and applicable directions/ guidelines issued by the Reserve Bank of India, particularly relating to Income Recognition, Asset Classification and Provisioning Norms, monitors and reports the total amount overdue including principal and/or interest for more than ninety days. In cases where repayment of principal and payment of interest is not received as stipulated, the cognizance thereof is taken by the Company in course of its periodic regulatory reporting. Refer notes 7 and 46 to the Financial Statements for summarized details of such loans/advances which are not repaid by borrowers as stipulated. However, reasonable steps are taken by the Company for recovery thereof.
- (e) The Company is registered as a Non-Banking Finance Company engaged in the primary business of financing/ granting of loans. Accordingly, reporting under clause 3(iii)(e) of the Order is not applicable.
- (f) According to information and explanations given to us and based on the audit procedures performed, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause (iii) (f) is not applicable.

- iv. The Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of loans granted, investments made and guarantees and securities provided, as applicable.
- v. The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order is not applicable.
- vi. The maintenance of cost records has not been specified by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013 for the business activities carried out by the Company. Hence, reporting under clause (vi) of the Order is not applicable to the Company.
- vii. In respect of statutory dues:

- (a) The Company does not have liability in respect of Service tax, Duty of excise, Sales tax and Value added tax during the year since effective 1 July 2017, these statutory dues has been subsumed into Goods and Services Tax (“GST”).

According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion amounts deducted / accrued in the books of account in respect of undisputed statutory dues including GST, Provident fund, Employees’ State Insurance, Income-Tax, Duty of Customs, Cess and other statutory dues have generally been regularly deposited by the Company with the appropriate authorities though there has been a slight delay in a few cases.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, no undisputed amounts payable in respect of GST, Provident fund, Employees’ State Insurance, Income-Tax, Duty of Customs, Cess and other statutory dues were in arrears as at 31 March 2022 for a period of more than six months from the date they became payable.

- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no statutory dues relating to GST, Provident Fund, Employees State Insurance, Income-Tax, Sales Tax, Service Tax, Duty of Customs, Value Added Tax or Cess or other statutory dues which have not been deposited on account of any dispute.

- viii. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.

- ix. (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not defaulted in the repayment of loans or borrowings or in the payment of interest thereon to any lender.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been declared a willful defaulter by any bank or financial institution or government or government authority.
- (c) In our opinion and according to the information and explanations given to us by the management, term loans were applied for the purpose for which the loans were obtained.
- (d) According to the information and explanations given to us and on an overall examination of the balance sheet of the Company, we report that no funds raised on short-term basis have been used for long-term purposes by the Company.

- (e) According to the information and explanations given to us and on an overall examination of the financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary, as defined in the Act. The Company does not hold any investment in any associate or joint venture (as defined in the Act) during the year ended 31 March 2022.
  - (f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiary (as defined under the Act).
- x.
  - (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
  - (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, clause 3(x)(b) of the Order is not applicable.
- xi.
  - (a) Based on examination of the books and records of the Company and according to the information and explanations given to us, considering the principles of materiality outlined in the Standards on Auditing, we report that no material fraud by the Company or on the Company has been noticed or reported during the course of the audit.
  - (b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
  - (c) As represented to us by the Management, there were no whistle blower complaints received by the Company during the year.
- xii. The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- xiii. In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the Financial Statements as required by the applicable accounting standards.
- xiv.
  - (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
  - (b) The internal audit is performed as per a planned program approved by the Audit Committee of the Board of Directors of the Company. We have considered, the internal audit reports for the year under audit, issued to the Company during the year.
- xv. In our opinion, during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors. and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi.
  - (a) According to the information and explanations given to us, the Company is engaged in the business of Non-Banking Financial Institution as defined under section 45-IA of Reserve Bank of India Act, 1934 (“RBI Act”) and is duly registered under section 45-IA of the RBI Act, holding certificate of registration (CoR) as a Non-Banking Financial Institution without accepting public deposits under section 45-IA of the said RBI Act.
  - (b) In our opinion and according to the information and explanations given to us, the Company has conducted its business activities of a Non-Banking Financial Company and is duly registered under section 45-IA of the RBI Act, holding certificate of registration (CoR) as a Non-Banking Financial Institution without accepting public deposits under section 45-IA of the said RBI Act.
  - (c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.

- (d) According to the information and explanations provided to us during the course of audit, the Group does not have any CICs.
- xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- xviii. The previous statutory auditors of the Company have resigned during the year pursuant to the requirements of the Guidelines for Appointment of Statutory Central Auditors (SCAs)/Statutory Auditors (SAs) of Commercial Banks (excluding RRBs), 8CBs and NBFCs (including HFCs) dated April 27, 2021, issued by the Reserve Bank of India, and no issues, objections or concerns were raised by the outgoing auditors.
- xix. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, Asset Liability Maturity (ALM) pattern as disclosed in the Notes to the Financial Statements, other information accompanying the Financial Statements and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. In our opinion and according to the information and explanations given to us, there is no unspent amount under sub-section (5) of section 135 of the Act pursuant to any project. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

## Indiabulls Commercial Credit Limited

### Notes to Financial Statements for the year ended March 31, 2022

#### Note 1:

##### Corporate information

Indiabulls Commercial Credit Limited ("the Company") "ICCL" was incorporated on July 07, 2006 and is engaged in the business of financing, investment and allied activities. On February 12, 2008, the Company was registered under section 45-IA of the Reserve Bank of India Act, 1934 to carry on the business of a Non Banking Financial Company but does not have permission from the Reserve Bank of India to accept public deposits.

In accordance with the provisions of section 13 and other applicable provisions of the Companies Act, 2013 read with Companies (Incorporation) Rules, 2014, the members of the company at their Extraordinary General Meeting held on March 02, 2015, accorded their approval to change the name of the Company. The Company has since received fresh certificate of incorporation consequent upon change of name from the Registrar of Companies, National Capital Territory of Delhi & Haryana dated March 12, 2015, in respect of the said change. Accordingly, the name of the Company was changed from Indiabulls Infrastructure Credit Limited to Indiabulls Commercial Credit Limited.

In accordance with the approval of the members of the Company, at their Extraordinary general meeting held on June 12, 2015 and of the Registrar of Companies, National Capital Territory of Delhi & Haryana, and pursuant to the provisions of Section 13 and other applicable provisions, if any, of the Companies Act, 2013, read with applicable rules made thereunder, new set of Memorandum of Association (MOA) of the Company in accordance with Table A of Schedule I of the Companies Act, 2013, inter alia modifying sub clause 5 of the erstwhile main object of the MOA, as reproduced below, be and is hereby adopted as follows:

"To act as financial consultants, investment, marketing and management consultants/advisors and provide consultancy in various fields including general administrative, secretarial, managerial, commercial, banking, financial, economic, public relation, personal and corporate finance and direct and indirect taxation and other levies".

The Board of Directors of Indiabulls Finance Company Private Limited ("IFCPL") and the Company at their meeting held on April 16, 2015 had approved, the Scheme of Arrangement, involving the merger of IFCPL, on an ongoing basis, into the Company, pursuant to and in terms of the provisions of Section 391 – 394 of the Companies Act, 1956, as amended from time to time ("Scheme of Arrangement"). The appointed date of the proposed merger fixed under the Scheme of Arrangement was April 01, 2015. The Hon'ble High Court of Delhi, vide its order dated March 15, 2016, received by the Company on March 31, 2016, approved the Scheme of Arrangement (Order). In terms of the court approved Scheme of Arrangement, with the filing of the copy of the Order, on March 31, 2016 with the office of ROC, NCT of Delhi & Haryana (the Effective Date), the Scheme of Arrangement came into effect and IFCPL, as a going concern, stands amalgamated with the Company with effect from the Appointed Date, being April 01, 2015 (in accordance with AS-14-Accounting for Amalgamations, under the Pooling of Interests Method). Consequent to the Scheme of Arrangement becoming effective, the Board of Directors of the Company at their meeting held on March 31, 2016, issued and allotted 32,826,288 Equity Shares of Rs. 10 each of the Company to the Equity Share Holders of IFCPL, against their share holding in such equity shares as on March 31, 2016. The issue of equity shares by the Company in the ratio of 3:1, was in terms of the Share Exchange Ratio as mentioned in the Court approved Scheme of Arrangement.

#### Note 2 :

##### (i) Basis of preparation

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and notified under section 133 of the Companies Act, 2013 (the Act) along with other relevant provisions of the Act, the Master Direction – Non-Banking Financial Company – Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 (Updated as on February 17, 2020) ('the RBI Directions, 2016') and notification for Implementation of Indian Accounting Standard vide circular RBI/2019-20/170 DOR(NBFC).CC.PD.No.109/22.10.106/2019-20 dated 13 March 2020 ('RBI Notification for Implementation of Ind AS') issued by RBI. The Company uses accrual basis of accounting except in case of significant uncertainties.

The financial statements are presented in Indian Rupee (INR) which is also the functional currency of the Company.

The financial statements are prepared on a going concern basis, as the Management is satisfied that the Company shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption. In making this assessment, the Management has considered a wide range of information relating to present and future conditions, including future projections of profitability, cash flows and capital resources. The outbreak of COVID-19 has not affected the going concern assumption of the Company.

## Indiabulls Commercial Credit Limited

### Notes to Financial Statements for the year ended March 31, 2022

#### Note 2 (continued...):

##### (ii) Presentation of financial statements

The Company presents its balance sheet in order of liquidity. Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- A. The normal course of business
- B. The event of default
- C. The event of insolvency or bankruptcy of the Group and/or its counterparties.

These financial statements have been prepared in Indian Rupee which is the functional currency of the Company.

The financial statements for the year ended March 31, 2022 were authorized and approved for issue by the Board of Directors on May 20, 2022.

#### Note 3 :

##### Significant accounting policies

##### 3.1 Use of estimates

The preparation of Standalone financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

##### A. Impairment loss on financial assets

The measurement of impairment losses across all categories of financial assets except assets valued at FVTPL, enquires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Company's expected credit loss (ECL) calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- The Company's model, which assigns Probability of Defaults (PDs)
- The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a Long Term ECL (LTECL) basis
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL models, including the various formulas and the choice of inputs
- Determination of associations between macroeconomic scenarios and, economic inputs, and the effect on PDs, Exposure at Default (EADs) and Loss Given Default (LGDs)
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models.

##### B. Business Model Assumption

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost that are de-recognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

## Indiabulls Commercial Credit Limited

### Notes to Financial Statements for the year ended March 31, 2022

#### Note 3 (continued...)

##### C. Defined employee benefit assets and liabilities

The cost of the defined benefit gratuity plan and other post-employment benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

##### D. Share Based Payments

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

##### E. Fair value measurement

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

##### F. Effective interest rate (EIR) method

The Company's EIR methodology, recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans and recognises the effect of potentially different interest rates charged at various stages and other characteristics of the product life cycle. This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well expected changes to the company's base rate and other fee income/expense that are integral parts of the instrument.

#### 3.2 Cash and cash equivalents

Cash and cash equivalent comprises cash in hand, demand deposits and time deposits held with bank, debit balance in cash credit account.

#### 3.3 Recognition of income and expense

##### a) Interest income

The Company earns revenue primarily from giving loans. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Interest revenue is recognized using the effective interest method (EIR). The effective interest method calculates the amortized cost of a financial instrument and allocates the interest income. The effective interest rate is the rate that discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the gross carrying amount of the financial asset or liability. The calculation takes into account all contractual terms of the financial instrument (for example, prepayment options) and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the EIR, but not future credit losses.

The Company recognises interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Company recognises the interest to the extent recoverable. If the financial assets cures and is no longer credit-impaired, the Company reverts to recognising interest income.

##### b) Interest expense

Interest expense includes issue costs that are initially recognized as part of the carrying value of the financial liability and amortized over the expected life using the effective interest method. These include fees and commissions payable to arrangers and other expenses such as external legal costs, provided these are incremental costs that are directly related to the issue of a financial liability.

##### c) Other charges and other interest

Additional interest and Overdue interest is recognised on realisation basis.

## Indiabulls Commercial Credit Limited

### Notes to Financial Statements for the year ended March 31, 2022

#### Note 3 (continued...)

##### e) Dividend income

Dividend income is recognized when the Company's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably. This is generally when shareholders approve the dividend.

##### 3.4 Foreign currency

The Company's financial statements are presented in Indian Rupees (INR) which is also the Company's functional currency.

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Foreign currency denominated monetary assets and liabilities are translated at the functional currency spot rates of exchange at the reporting date and exchange gains and losses arising on settlement and restatement are recognized in the statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

##### 3.5 Leases

The company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

###### Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

###### Right-of-use assets

###### Lease Liability

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable. The lease payments also include payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

###### Short-term leases

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases are recognised as expense on a straight-line basis over the lease term.

## Indiabulls Commercial Credit Limited

### Notes to Financial Statements for the year ended March 31, 2022

#### Note 3 (continued...)

##### Significant accounting, judgements, estimates and assumptions

Determining the lease term of contracts with renewal and termination options – Company as lessee

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

Leases - Estimating the incremental borrowing rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease.

##### 3.6 Property, plant and equipment (PPE) and Intangible assets

###### PPE

PPE are stated at cost (including incidental expenses directly attributable to bringing the asset to its working condition for its intended use) less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Subsequent expenditure related to PPE is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of item can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

###### Intangible fixed assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

##### 3.7 Depreciation and amortization

###### Depreciation

Depreciation on PPE is provided on straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013, except for Vehicles.

Vehicles are amortised on a straight line basis over a period of five years from the date when the assets are available for use. The life has been assessed based on past usage experience and considering the change in technology.

Depreciation on additions to PPE is provided on a pro-rata basis from the date the asset is put to use. Leasehold improvements are amortised over the period of Lease. Depreciation on sale / deduction from PPE is provided for up to the date of sale / deduction, as the case may be.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

###### Amortization

Intangible assets consisting of Software are amortised on a straight line basis over a period of four years from the date when the assets are available for use.

The amortisation period and the amortisation method for these softwares with a finite useful life are reviewed at least at each financial year-end.

## Indiabulls Commercial Credit Limited

### Notes to Financial Statements for the year ended March 31, 2022

#### Note 3 (continued...)

##### 3.8 Impairment of non-financial assets

The carrying amount of assets is reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

##### 3.9 Provisions, Contingent Liability and Contingent Assets

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are determined based on the best estimate required to settle the obligation at the balance sheet date. Contingent liability is disclosed for (1) Possible obligations which will be confirmed only by future events not wholly within the control of the Company or (2) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made. Contingent Assets are not recognised in the financial statements.

##### 3.10 Retirement and other employee benefits

Retirement benefit in the form of provident fund and Employee State Insurance Scheme is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund and Employee State Insurance scheme. The Company recognizes contribution payable to the provident fund and Employee State Insurance scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Company has unfunded defined benefit plans Gratuity plan for all eligible employees, the liability for which is determined on the basis of actuarial valuation at each year end. Separate actuarial valuation is carried out for each plan using the projected unit credit method. Superannuation (Pension & Medical coverage) payable to a Director on retirement is also actuarially valued at the end of the year using the Projected Unit Credit Method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

##### 3.11 Taxes

Tax expense comprises current and deferred tax.

##### Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with Income tax Act, 1961, Income Computation and Disclosure Standards and other applicable tax laws. The tax rates and tax laws used to compute the amount are those that are enacted at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which during the specified period gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is highly probable that future economic benefit associated with it will flow to the Company.

## Indiabulls Commercial Credit Limited

### Notes to Financial Statements for the year ended March 31, 2022

#### Note 3 (continued...)

##### Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

##### 3.12 Earning per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

##### 3.13 Share based payments

Equity-settled share based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share based payments is expensed on a straight line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in Statement of Profit and Loss such that the cumulative expenses reflects the revised estimate, with a corresponding adjustment to the Share Based Payments Reserve.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

## Indiabulls Commercial Credit Limited

### Notes to Financial Statements for the year ended March 31, 2022

#### Note 3 (continued...)

##### 3.14 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

##### 3.14.1 Financial Assets

###### 3.14.1.1 Initial recognition and measurement

Financial assets, with the exception of loans and advances to customers, are initially recognised on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. Loans and advances to customers are recognised when funds are disbursed to the customers. The classification of financial instruments at initial recognition depends on their purpose and characteristics and the management's intention when acquiring them. All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

###### 3.14.1.2 Classification and Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

###### 3.14.1.3 Debt instruments at amortised costs

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Business model: The business model reflects how the Company manages the assets in order to generate cash flows. That is, where the Company's objective is solely to collect the contractual cash flows from the assets, the same is measured at amortized cost or where the Company's objective is to collect both the contractual cash flows and cash flows arising from the sale of assets, the same is measured at fair value through other comprehensive income (FVTOCI). If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'other' business model and measured at FVPL.

SPPI: Where the business model is to hold assets to collect contractual cash flows (i.e. measured at amortized cost) or to collect contractual cash flows and sell (i.e. measured at fair value through other comprehensive income), the Company assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Company considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss. The amortized cost, as mentioned above, is computed using the effective interest rate method.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the statement of profit or loss. The losses arising from impairment are recognised in the statement of profit and loss.

## Indiabulls Commercial Credit Limited

### Notes to Financial Statements for the year ended March 31, 2022

#### Note 3 (continued...)

##### 3.14.1.4 Debt instruments at FVOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Statement of Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

##### 3.14.1.5 Debt instruments at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

##### 3.14.1.6 Equity Investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

#### 3.14.2 Financial Liabilities

##### 3.14.2.1 Initial recognition and measurement

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for trading or it is designated as on initial recognition. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

##### 3.14.2.2 Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

##### 3.14.3 Derivative financial instruments

The Company holds derivatives to mitigate the risk of changes in exchange rates on foreign currency exposures as well as interest fluctuations. The counterparty for these contracts is generally a bank. Derivatives that are not designated a hedge are categorized as financial assets or financial liabilities, at fair value through profit or loss. Such derivatives are recognized initially at fair value and attributable transaction costs are recognized in net profit in the Statement of Profit and Loss when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting gains or losses are included in Statement of Profit and Loss.

**Note 3 (continued...)**

**3.14.4 Reclassification of financial assets and liabilities**

The company doesn't reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified.

**3.14.5 De recognition of financial assets and liabilities**

**3.14.5.1 Financial Assets**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is de-recognised when the rights to receive cash flows from the financial asset have expired. The Company also de-recognised the financial asset if it has transferred the financial asset and the transfer qualifies for de recognition.

The Company has transferred the financial asset if, and only if, either:

- It has transferred its contractual rights to receive cash flows from the financial asset
- Or
- It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement.

Pass-through arrangements are transactions whereby the Company retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following three conditions are met:

- The Company has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates.
- The Company cannot sell or pledge the original asset other than as security to the eventual recipients.
- The Company has to remit any cash flows it collects on behalf of the eventual recipients without material delay.

In addition, the Company is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients.

A transfer only qualifies for derecognition if either:

- The Company has transferred substantially all the risks and rewards of the asset
- Or
- The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Company has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Company's continuing involvement, in which case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration the Company could be required to pay.

If continuing involvement takes the form of a written or purchased option (or both) on the transferred asset, the continuing involvement is measured at the value the Company would be required to pay upon repurchase. In the case of a written put option on an asset that is measured at fair value, the extent of the entity's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

## Indiabulls Commercial Credit Limited

### Notes to Financial Statements for the year ended March 31, 2022

#### Note 3 (continued...)

##### 3.14.5.2 Financial Liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

##### 3.15 Impairment of financial assets

###### 3.15.1 Overview of the ECL principles

The Company is recording the allowance for expected credit losses for all loans and other debt financial assets not held at FVTPL, together with loan commitments and financial guarantee contracts, (in this section all referred to as 'financial instruments'). Equity instruments are not subject to impairment under IND AS 109.

The ECL allowance is based on:

- a) 12 months' expected credit loss (12mECL) where there is no significant increase in credit risk since origination and
- b) on the the credit losses expected to arise over the life of the asset (the lifetime expected credit loss or LTECL)

The 12mECL is the portion of LTECL that represents the ECL that results from default events on a financial instrument that are possible within the 12 months after the reporting date.

Both LTECLs and 12mECLs are calculated on individual and collective basis, depending on the nature of the underlying portfolio of financial instruments. The Company has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition.

Based on the above process, the Company groups its loans into Stage 1, Stage 2, Stage 3, as described below:

Stage 1 : When loans are first recognised, the Company recognises an allowance based on 12mECLs. Stage 1 loans also include facilities where the credit risk has improved and the loan has been reclassified from Stage 2 or Stage 3.

Stage 2: When a loan has shown a significant increase in credit risk since origination, the company records an allowance for the LTECLs. Stage 2 loans also include facilities, where the credit risk has improved and the loan has been reclassified from Stage 3.

Stage 3: Loans considered credit-impaired. The Company records an allowance for the LTECLs.

##### 3.15.2 The calculation of ECLs

The Company calculates ECLs based on a probability-weighted scenarios and historical data to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive.

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

- PD - The Probability of Default is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio.
- EAD - The Exposure at Default is an exposure at a default date.
- LGD - The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD.

The maximum period for which the credit losses are determined is the expected life of a financial instrument.

## Indiabulls Commercial Credit Limited

### Notes to Financial Statements for the year ended March 31, 2022

#### Note 3 (continued...)

The mechanics of the ECL method are summarised below:

Stage 1: The 12mECL is calculated as the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. The Company calculates the 12mECL allowance based on the expectation of a default occurring in the 12 months following the reporting date. These expected 12-month default probabilities are applied to an EAD and multiplied by the expected LGD.

Stage 2: When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for the LTECLs. The mechanics are similar to those explained above, but PDs and LGDs are estimated over the lifetime of the instrument.

Stage 3: For loans considered credit-impaired, the Company recognizes the lifetime expected credit losses for these loans. The method is similar to that for Stage 2 assets, with the PD set at 100%.

Loan commitments: When estimating LTECLs for undrawn loan commitments, the Company estimates the expected portion of the loan commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected shortfalls in cash flows if the loan is drawn down. The expected cash shortfalls are discounted at an approximation to the expected EIR on the loan.

For loan commitments, the ECL is recognised within Provisions.

The mechanics of the ECL method are summarised below:

Stage 1: The 12mECL is calculated as the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. The Company calculates the 12mECL allowance based on the expectation of a default occurring in the 12 months following the reporting date. These expected 12-month default probabilities are applied to an EAD and multiplied by the expected LGD.

Stage 2: When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for the LTECLs. The mechanics are similar to those explained above, but PDs and LGDs are estimated over the lifetime of the instrument.

Stage 3: For loans considered credit-impaired, the Company recognizes the lifetime expected credit losses for these loans. The method is similar to that for Stage 2 assets, with the PD set at 100%.

#### 3.15.3 Forward looking information

While estimating the expected credit losses, the Company reviews macro-economic developments occurring in the economy and market it operates in. On a periodic basis, the Company analyses if there is any relationship between key economic trends like GDP, Unemployment rates, Benchmark rates set by the Reserve Bank of India, inflation etc. with the estimate of PD, LGD determined by the Company based on its internal data. While the internal estimates of PD, LGD rates by the Company may not be always reflective of such relationships, temporary overlays are embedded in the methodology to reflect such macro-economic trends reasonably.

#### 3.15.4 Write-offs

Financial assets are written off either partially or in their entirety only when the Company has stopped pursuing the recovery. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to profit and loss account.

## Indiabulls Commercial Credit Limited

### Notes to Financial Statements for the year ended March 31, 2022

#### Note 3 (continued...)

##### 3.16 Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date using valuation techniques.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or

In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

##### 3.17 Dividend

The Company recognises a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

##### 3.18 Hedging

The Company makes use of derivative instruments to manage exposures to interest rate and foreign currency. In order to manage particular risks, the Company applies hedge accounting for transactions that meet specified criteria.

At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Company's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

## Indiabulls Commercial Credit Limited

### Notes to Financial Statements for the year ended March 31, 2022

#### Note 3 (continued...)

##### 3.18.1 Fair value hedges

Fair value hedges hedge the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment, or an identified portion of such an asset, liability or firm commitment, that is attributable to a particular risk and could affect profit or loss.

For designated and qualifying fair value hedges, the cumulative change in the fair value of a hedging derivative is recognised in the statement of profit and loss in net gain on fair value changes. Meanwhile, the cumulative change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item in the balance sheet and is also recognised in the statement of profit and loss in net gain on fair value changes.

The Company classifies a fair value hedge relationship when the hedged item (or group of items) is a distinctively identifiable asset or liability hedged by one or a few hedging instruments. The financial instruments hedged for interest rate risk in a fair value hedge relationships fixed rate debt issued and other borrowed funds.

If the hedging instrument expires or is sold, terminated or exercised, or where the hedge no longer meets the criteria for hedge accounting, the hedge relationship is discontinued prospectively. If the relationship does not meet hedge effectiveness criteria, the Company discontinues hedge accounting from the date on which the qualifying criteria are no longer met. For hedged items recorded at amortised cost, the accumulated fair value hedge adjustment to the carrying amount of the hedged item on termination of the hedge accounting relationship is amortised over the remaining term of the original hedge using the recalculated EIR method by recalculating the EIR at the date when the amortisation begins. If the hedged item is derecognised, the unamortised fair value adjustment is recognised immediately in the statement of profit and loss.

##### 3.18.2 Cash flow hedges

A cash flow hedge is a hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with a recognised asset or liability (such as all or some future interest payments on variable rate debt) or a highly probable forecast transaction and could affect profit or loss.

For designated and qualifying cash flow hedges, the effective portion of the cumulative gain or loss on the hedging instrument is initially recognised directly in OCI within equity (cash flow hedge reserve). The ineffective portion of the gain or loss on the hedging instrument is recognised immediately in net gain/loss on fair value changes in the profit and loss statement.

When the hedged cash flow affects the statement of profit and loss, the effective portion of the gain or loss on the hedging instrument is recorded in the corresponding income or expense line of the statement of profit and loss. When the forecast transaction subsequently results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognised in OCI are reversed and included in the initial cost of the asset or liability.

When a hedging instrument expires, is sold, terminated, exercised, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss that has been recognised in OCI at that time re-mains in OCI and is recognised when the hedged forecast transaction is ultimately recognised in the statement of profit and loss. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in OCI is immediately transferred to the statement of profit and loss.

##### 3.18.3 Cost of hedging

The Company also may separate forward element and the spot element of a forward contract and designate as the hedging instrument only the change in the value of the spot element of a forward contract. Similarly currency basis spread may be separated and excluded from the designation of a financial instrument as the hedging instrument.

When an entity separates the forward element and the spot element of a forward contract and designates as the hedging instrument only the change in the value of the spot element of the forward contract, or when an entity separates the foreign currency basis spread from a financial instrument and excludes it from the designation of that financial instrument as the hedging instrument, such amount is recognised in OCI and accumulated as a separate component of equity under Cost of hedging reserve. These amounts are reclassified to the statement of profit or loss account as a reclassification adjustment in the same period or periods during which the hedged cash flows affect profit or loss.

##### 3.19 Investment in subsidiaries

Investment in subsidiaries are measured at cost less impairment loss, if any.

## Indiabulls Commercial Credit Limited

### Notes to Financial Statements for the year ended March 31, 2022

#### Note 3 (continued...)

##### 3.20 Assets held for Sale

In the course of its business activities, the Company acquires and holds certain assets (residential / commercial) for sale. The Company is committed to sell these assets and such assets and the carrying amounts of such assets will be recovered principally through the sale of these assets.

In accordance with Ind AS 105, assets held for sale are measured on the reporting date at the lower of carrying value or fair value less costs to sell. The Company does not charge depreciation on such assets. Fair value of such assets is determined based on independent valuations conducted by specialists.

#### Note 4: Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 1st, 2022, as below:

##### Ind AS 103 – Business Combinations – Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

##### Ind AS 16 – Property, Plant and Equipment – Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

##### Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets – Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact in its financial statements.

##### Ind AS 109 – Financial Instruments – Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its financial statements.

- (d) Company guarantees and / or
- (e) Personal guarantees and / or
- (f) Negative lien and / or Undertaking to create a security.

**7.1. Impairment allowance for loans and advances to customers**

The company's Analytics Department has designed and operates its Internal Rating Model. The model is tested and calibrated periodically. The model grades loans on a four-point grading scale, and incorporates both quantitative as well as qualitative information on the loans and the borrowers. The model uses historical empirical data of the group to arrive at factors that are indicative of future credit risk and segments the portfolio on the basis of combinations of these parameters into smaller homogenous portfolios from the perspective of credit behaviour. Some of the factors that the internal risk based model may consider are:

- a) Loan to value
- b) Type of collateral
- c) Cash-flow and income assessment of the borrower
- d) Interest and debt service cover
- e) Repayment track record of the borrower
- f) Vintage i.e. months on books and number of paid EMIs
- g) Project progress in case of project finance

In addition to information specific to the borrower and the performance of the loan, the model may also utilise supplemental external information that could affect the borrower's behaviour. The model is also calibrated to incorporate external inputs such as GDP growth rate, unemployment rate and factors specific to the sector/industry of the borrower.

The Internal Rating Model is dynamic and is calibrated periodically; the choice of parameters and division into smaller homogenous portfolios is thus also dynamic.

The table below shows the credit quality and the maximum exposure to credit risk based on the Company's internal credit rating system and year-end stage classification\*.

#Includes ECL on undrawn loan commitments for Rs. 0.21 Crore

The Company has adopted a conservative approach to expected credit loss [ECL] staging and accounts have been categorized as Stage 2 based on analysis of stress in particular industry segments – even if the loan accounts are regular in debt servicing.

IndAS ECL guidelines also do not permit creation of unattached ad-hoc/ counter-cyclical provisions outside of the analytically computed ECL provisions. Thus, this identification of stress in industry particular industry segments and categorizing a significantly larger number of loans as Stage 2 has formed the basis of the robust provisioning buffer the Company has created – as on March 31, 2022, the company had total provisions against loan book of ₹ 170.39 Crores which is 1.60% of the loan book.

Refer Note 60 for disclosures on Moratorium – COVID 19 Regulatory Package – Asset Classification And Provisioning pursuant to the Notification Vide:DOR.No.BP.BC.63/21.04.048/2019-20 dated April 17, 2020

7.2. Impairment assessment

The Company's impairment assessment and measurement approach is set out in the notes below. It should be read in conjunction with the Summary of significant accounting policies.

## Indiabulls Commercial Credit Limited

### Notes to the Financial Statements for the year ended March 31, 2022

#### Note 7 : Loans (continued...)

##### 7.2. (i) Probability of default

The Company considers a financial instrument as defaulted and classifies it as Stage 3 (credit-impaired) for ECL calculations typically when the borrower becomes 90 days past due on contractual payments. The Company may also classify a loan in Stage 3 if there is significant deterioration in the loan collateral, deterioration in the financial condition of the borrower or an assessment that adverse market conditions may have a disproportionately detrimental effect on the loan repayment. Thus, as a part of the qualitative assessment of whether an instrument is in default, the company also considers a variety of instances that may indicate delay in or non-repayment of the loan. When such events occur, the company carefully considers whether the event should result in treating the borrower as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 is appropriate.

"Classification of accounts into stage 2 is done on a conservative basis and typically accounts where contractual repayments are more than 30 days past due are classified in stage 2. Accounts usually go over 30 days past due owing to temporary mismatch in timing of the borrowers' or his/her business' underlying cash flows, and are usually quickly resolved. It has been the company's experience that resolution rates [movement from stage 2 to stage 1] are high and in FY19 99.9% [previous year 98.9%] of stage 2 assets moved to stage 1.

It is the company's policy to consider a financial instrument as 'cured' and therefore re-classified out of Stage 3 when none of the default criteria are present. The decision whether to classify an asset as Stage 2 or Stage 1 once cured depends on the updated credit grade once the account is cured, and whether this indicates there has been a significant reduction in credit risk.

##### 7.2. (ii) Internal rating model and PD Estimation process

The company's internal rating and PD estimation process:

The company's Analytics Department has designed and operates its Internal Rating Model that factors in both quantitative as well as qualitative information on the loans and the borrowers. The model uses historical empirical data of the group to arrive at factors that are indicative of future credit risk and segments the portfolio on the basis of combinations of these parameters into smaller homogenous portfolios from the perspective of credit behaviour. The PDs are computed for these homogenous portfolio segments. The PDs are also used for Ind-AS 109 ECL calculations and the Ind AS 109 Stage classification of the exposure.

##### 7.2 (iii) Exposure at default

The outstanding balance as at the reporting date is considered as EAD by the company. Considering that PD determined above factors in amount at default, there is no separate requirement to estimate EAD.

##### 7.2. (iv) Loss given default

The Company uses historical loss data of the group for identified homogenous pools for the purpose of calculating LGD. The estimated recovery cash flows are discounted such that the LGD calculation factors in the NPV of the recoveries.

##### 7.2. (v) Significant increase in credit risk

The internal rating model evaluates the loans on an ongoing basis. The rating model also assesses if there has been a significant increase in credit risk since the previously assigned risk grade. One key factor that indicates significant increase in credit risk is when contractual payments are more than 30 days past due.

##### 7.2. (vi) Company's financial assets measured on a collective basis

For Stage 3 assets ECL is calculated on an individual basis.

For stages 1 and 2 the internal rating model analyses historical empirical data, determines parameters that are indicative of future credit risk and segments the portfolio on the basis of a combination of these parameters into smaller homogeneous portfolios. The loss estimation for these pools is hence done on a collective basis. In addition to information specific to the borrower and the performance of the loan, the model may also utilise supplemental external information that could affect the borrower's behaviour. The model is also calibrated to incorporate external inputs such as GDP growth rate, unemployment rate and factors specific to the sector/industry of the borrower.

##### 7.3. Inputs to the ECL model for forward looking economic scenarios

The internal rating model also provides for calibration to reflect changes in macroeconomic parameters and industry specific factors.

## Indiabulls Commercial Credit Limited

### Notes to the Financial Statements for the year ended March 31, 2022

#### Note 7 : Loans (continued...)

##### 7.4. Collateral

In the ordinary course of its business, the Company extends secured loans mainly backed by mortgage of property (residential or commercial).

In addition to the above mentioned collateral, the Company holds other types of collateral and credit enhancements, such as cross-collateralisation on other assets of the borrower, share pledge, guarantees of parent/holding companies, personal guarantees of promoters/proprietors, hypothecation of receivables via escrow account, hypothecation of receivables in other bank accounts etc.

In its normal course of business, the Company does not physically repossess properties or other assets, but recovery efforts are made on delinquent loans through on-rolls collection executives, along with legal means to recover due loan repayments. Once contractual loan repayments are more than 90 days past due, repossession of property may be initiated under the provisions of the SARFAESI Act 2002. Re-possessed property is disposed of in the manner prescribed in the SARFAESI act to recover outstanding debt.

The Company did not hold any financial instrument for which no loss allowance is recognised because of collateral at March 31, 2022. There was no change in the Company's collateral policy or collateral quality during the year.

##### 7.5 Impact of Covid-19 and provision for impairment due to expected credit loss

The outbreak of CoVID-19 virus, and more specifically the ongoing current wave of infections and resultant lockdowns continue to cause significant disruptions and dislocations for individuals and businesses. While the lockdown introduced by the government at the beginning of the year were lifted in a phased manner and was followed by a period of increased economic activity, with the onset of a very severe second wave of infections, state governments have reintroduced lockdowns and have imposed restrictions on movement of people and goods. The Company's performance continues to be dependent on future developments, which are uncertain, including, among other things, including the current wave that has significantly increased the number of cases in India and any action to contain its spread or mitigate its impact.

A. In accordance with the Reserve Bank of India's guidelines relating to CoVID-19 Regulatory Package dated 27 March 2020 and 17 April 2020, the Company has granted moratorium of three months on the payment of all instalments falling due between 1 March 2020 and 31 May 2020 to all eligible borrowers who have requested for the moratorium, as per its Board approved policy. The RBI via press release dated May 22, 2020 has permitted lending institutions to extend the moratorium by another three months, i.e., from June 1, 2020 to August 31, 2020. The Company has extended the EMI moratorium to its customers based on requests received from such customers, as per its Board approved policy. In accordance with the guidance from the ICAI and in management's view, the extension of the moratorium to the Company's borrowers by the Company pursuant to the RBI guidelines relating to COVID 19 Regulatory Package dated March 27, 2020 and April 17, 2020 and RBI press release, by itself is not considered to result in a significant credit risk (SICR) of such borrowers.

The Company is mainly engaged in the business of financing by way of loans against property (LAP), mortgage backed SME loans, and certain other purposes in India. Operations of all these segments were impacted over the past few years and consequent to COVID 19 pandemic are expected to be further significantly impacted, including erosion in the asset values of the collaterals held by the Company. The Company has assessed each of its loan portfolios and performed a comprehensive analysis of the staging of each of its borrower segments. Further, the Company has also analysed its outstanding exposures viz a viz the valuation of the collateral/underlying property based on third party valuation reports. Based on the above analysis, the Company has recorded a provision for impairment due to expected credit loss (ECL), of Rs.339.56 crores in respect of its loans and advances as at 31 March 2021, to reflect, among other things, an increased risk of deterioration in macro-economic factors caused by COVID-19 pandemic. The ECL provision has been determined based on estimates using information available as of the reporting date and given the unique nature and scale of the economic impact of this pandemic, the expected credit loss is based on various variables and assumptions, which could result in actual credit loss being different than that being estimated. As a result of this pandemic, the credit performance and repayment behaviour of the customers' needs to be monitored closely. In the event the impact of pandemic is more severe or prolonged than anticipated, this will have a corresponding impact on the carrying value of the financial assets, results of operations and the financial position of the Company.

B. The Company has considered the following key matters in determining its liquidity position for the next 12 months:

- a. Schemes announced by the Government of India, which will directly benefit Non-Banking Financial Companies through guarantees from the Government of India. The Company has evaluated these schemes and is considering applications to seek fund under the schemes;
  - b. Current status / outcomes of discussions with the Company's lenders, seeking moratorium on the Company's debt service obligations to such lenders;
  - c. Status of its requests for additional funding, from existing lenders as well as others.
- Based on the detailed assessment of the monthly cash inflows and outflows for next 12 months and the management has concluded that it will be able to meet its obligations.

## Indiabulls Commercial Credit Limited

### Notes to the Financial Statements for the year ended March 31, 2022

#### Note 23 : Other Equity (continued...)

(1) Special reserve u/s 36(1)(viii) of I Tax Act, 1961

In terms of Section 36(1)(viii) of the Income Tax Act, 1961, a deduction is allowed for income from eligible business viz, Income from providing long-term infrastructure finance, long-term finance for the construction or purchase houses in India for residential purposes and the business of providing long-term finance for industrial or agricultural development etc. The Company claims the deduction as it falls under some of the categories of eligible business as defined under Section 36(1)(viii) of the Income Tax Act, 1961. Consequently the Company has, as at year end, transferred an amount of Rs. 51.54 crore (Previous year Rs. Nil ) to the special reserve account to claim deduction in respect of eligible business under the said section.

(2) Reserve fund

In terms of Section 45-IC of the RBI Act, 1934, the Company is required to transfer at least 20% of its Net Profits (after tax) to a reserve before any dividend is declared. As at the year end, the Company has transferred an amount of Rs. 27.81 crore (Previous year Rs. 3.96 crore) to the reserve fund.

(3) Capital reserve

The Company recognises profit and loss on purchase, sale, issue or cancellation of the Group's own equity instruments to capital reserve.

(4) Securities premium

Securities premium is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of section 52 of the Companies Act, 2013.

(5) Capital redemption reserve

As per Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. The reserve is utilized in accordance with the provisions of section 69 of the Companies Act, 2013.

(6) Retained earnings

Retained earnings are the accumulated profits earned by the Company till date, less transfer to general reserves, dividend (including dividend distribution tax) and other distributions made to the shareholders.

(7) Debenture Redemption Reserve

The Companies Act, 2013 requires that where a company issues debentures, it shall create a debenture redemption reserve out of profits of the company available for payment of dividend. The Company is required to maintain a Debenture Redemption Reserve of 25% of the value of debentures issued by a public issue. The amounts credited to the debenture redemption reserve may not be utilised by the company except to redeem debentures. The Ministry of Corporate Affairs (MCA) has amended the Companies (Share Capital and Debenture) Rules, 2014, doing away with creation of debenture redemption reserve by NBFCs with respect to issue of non convertible debentures (NCDs). Vide the said amendment, now NBFCs are required on or before 30 April of each year to invest or deposit in prescribed securities, a sum not less than 15 per cent of the debentures maturing during the year ending on 31 March of the next year. Accordingly, during the year ended March 31, 2022, the Company has transferred Rs. 238.68 crores to the General Reserve in respect of Debenture Redemption Reserve no longer required.

(8) Share based payment reserve

The share based payment reserve is used to record the value of equity-settled share based payment transactions with employees. The amounts recorded in share based payment reserve are transferred to share premium/retained earnings upon exercise of stock options by employees.

#### 9) Proposed Dividend

The Board of Directors in their meeting on May 20, 2022 recommended a final dividend of Re. 1/- per equity share for the financial year ended March 31, 2022. This payment is subject to the approval of shareholders in the ensuing Annual General Meeting (AGM) of the Company and if approved would result in a net cash outflow of approximately Rs. 24.78 crore.

**Note - 34**

**Disclosures required under Section 22 of the Micro, Small and Medium Enterprises Development Act, 2006:**

Particulars	Amount Rs. in crores	
	As at March 31, 2022	As at March 31, 2021
(i) Principal amount remaining unpaid to any supplier as at the end of the accounting year	Nil	Nil
(ii) Interest due thereon remaining unpaid to any supplier as at the end of the accounting year	Nil	Nil
(iii) The amount of interest paid along with the amounts of the payment made to the supplier beyond the appointed day	Nil	Nil
(iv) The amount of interest due and payable for the year	Nil	Nil
(v) The amount of interest accrued and remaining unpaid at the end of the accounting year	Nil	Nil
(vi) The amount of further interest due and payable even in the succeeding year, until such date when the interest dues as above are actually paid	Nil	Nil

The above information regarding Micro, Small and Medium Enterprises has been determined to the extent such parties have been identified on the basis of information available with the Company. This has been relied upon by the auditors.

**Note - 35**

**Segment Reporting:**

The Chief Operating Decision Maker ("CODM") reviews operations and allocates resources at the Company level. Therefore, the operations of the Company fall under its main business of financing by way of loans against property (LAP), mortgage backed SME loans, and certain other purposes in India, which is considered to be the only reportable segment in accordance with IND-AS 108 - Operating Segments. All other activities of the Company revolve around the main business.

**Indiabulls Commercial Credit Limited**
**Notes to financial statements for the year ended March 31, 2022**
**Note - 36**
**Employee Benefits**

Employee Benefits – Provident Fund, Employee State Insurance (ESIC), Gratuity and Compensated Absences disclosures as per Indian Accounting Standard (IndAS) 19 – Employee Benefits:

Contributions are made to Government Provident Fund and Family Pension Fund, ESIC and other statutory funds which cover all eligible employees under applicable Acts. Both the employees and the Company make predetermined contributions to the Provident Fund and ESIC. The contributions are normally based on a certain proportion of the employee's salary. The Company has recognised an amount of Rs. 0.29 crores (Previous year Rs. 0.37 crores) in the Statement of Profit and Loss towards Employers contribution for the above mentioned funds.

Provision for unfunded Gratuity and Compensated Absences for all employees is based upon actuarial valuations carried out at the end of every financial year. Major drivers in actuarial assumptions, typically, are years of service and employee compensation. Pursuant to the issuance of the Indian Accounting Standard (IndAS) 19 on 'Employee Benefits', commitments are actuarially determined using the 'Projected Unit Credit' Method. Gains and losses on changes in actuarial assumptions are accounted for in the Statement of Profit and Loss.

**Disclosures in respect of Gratuity and Compensated Absences:**

The Indian Parliament has approved the Code on Social Security, 2020 which would impact the contributions by the company towards Provident Fund and Gratuity. The Ministry of Labour and Employment has released draft rules for the Code on Social Security, 2020 on November 13, 2020, and has invited suggestions from stakeholders which are under active consideration by the Ministry. The Company will assess the impact and its evaluation once the subject rules are notified and will give appropriate impact in its financial statements in the period in which the Code becomes effective and the related rules to determine the financial impact are published.

**Note - 39**

**Risk Management**

Indiabulls Commercial Credit Limited (ICCL) is a non banking finance company in India and is regulated by the Reserve Bank of India (RBI). In view of the intrinsic nature of its operations as a lending institution, Company is exposed to various risks that are related to lending business and operating environment. The principal objective of the Company's risk management processes is to measure and monitor the various risks that Company is subject to and to follow policies and procedures to address such risks. The Company's risk management framework is driven by its Board of Directors and its subcommittees (including the Audit Committee, the Asset Liability Management Committee and the Risk Management Committee). The Company gives due importance to prudent lending practices and has implemented suitable measures for risk mitigation, which include verification of credit history from credit information bureaus, personal verification of a customer's business and residence, technical and legal verifications, conservative loan to value, and required term cover for insurance. The Company is exposed to a variety of risks, such as credit risk, market risk, liquidity risk, operational risk and regulatory risks. Well-established systems and procedures provide adequate defense against the regulatory and operational risks.

**(A) Liquidity risk**

Liquidity risk is the potential for loss to an entity arising from either its inability to meet its obligations or to fund increases in assets as they fall due without incurring unacceptable cost or losses.

The Company manages liquidity risk by maintaining sufficient cash and cash equivalents (including highly marketable and diverse assets that are assumed to be easily liquidated in the event of an unforeseen interruption in cash flows) to meet its obligations at all times. It also ensures having access to funding through an adequate amount of committed credit lines. The Company's treasury department is responsible for liquidity and funding as well as settlement management. The Company assesses the liquidity position under a variety of scenarios, giving due consideration to stress factors relating to both the market in general and specifically to the Company. The Company also takes into account liquidity of the market in which the entity operates. In addition, processes and policies related to such risks are overseen by the Asset Liability Management Committee and the senior management regularly monitors the position of cash and cash equivalents vis-à-vis projections. In addition, the Asset Liability Management Committee, guides the Company's treasury team in liquidity risk management through various means like liquidity buffers, sourcing of long term funds, positive asset liability mismatch, keeping strong pipeline of sanctions and approvals from banks and assignment of loans. Assessment of maturity profiles of financial assets and financial liabilities including debt financing plans and maintenance of Balance Sheet liquidity ratios are considered while reviewing the liquidity position.

The table below summarises the maturity profile of the undiscounted cash flows of the Company's financial liabilities :

March 31, 2022	Amount Rs. in Crores				Total
	Upto One month	Over one months to 2 years	2 years to 5 years	more than 5 years

**(B) Credit Risk**

Credit Risk is the risk of financial loss arising out of either a customer or counterparty's unwillingness to perform on an obligation or its ability to perform such obligation is impaired resulting in economic loss to the Company. The Company's Credit Risk Management framework is categorized into following main components:

- Senior management's oversight
- Organizational structure
- Systems and procedures for identification, acceptance, measurement, monitoring and controlling risks.

It is the overall responsibility of the company's senior management to approve the Company's credit risk strategy and lending policies relating to credit risk and its management. The policies are based on the Company's overall business strategy and the same is reviewed every quarter by the senior management.

To maintain credit discipline and to enunciate credit risk management and control process there is a separate Risk Management department independent of loan origination function. The Risk Management department performs the function of Credit policy formulation, credit limit setting, monitoring of credit exceptions / exposures and review /monitoring of documentation.

The Risk Management Committee monitors credit risk the using level of credit exposures, portfolio monitoring, repurchase rate, bureau data of portfolio performance and industry, geographic, customer, portfolio concentration risks; and assessment of any major change in the business environment including economic, political as well as natural calamity/pandemic. The Risk Management Committee also periodically reviews the credit risk management procedures implemented by Risk management department.

**Derivative financial Instruments**

Credit risk arising from derivative financial instruments is, at any time, limited to those with positive fair values, as recorded on the balance sheet.

With gross-settled derivatives, the company is also exposed to a settlement risk, being the risk that the company honours its obligation, but the counterparty fails to deliver the counter value.

The Company's concentrations of risk for loans are managed by counterparty and type of loan (i.e. CRE-RH and others as defined by RBI. These are given to both individual and corporate borrowers. The table below shows the concentration of risk by type of loan.

	Amount Rs. in Crores	
	March 31, 2022	March 31, 2021
Commercial Real Estate - Residential Housing (CRE-RH)	1,777.80	4,021.32
Others	9,002.11	8,279.84

**Indiabulls Commercial Credit Limited****Notes to financial statements for the year ended March 31, 2022****Note - 39 (continued...)**

**(i) Interest Rate Risk:-**

Interest rate risk arises when there is a mismatch between positions, which are subject to interest rate adjustment within a specified period. The company's lending, funding and investment activities give rise to interest rate risk. The immediate impact of variation in interest rate is on the company's net interest income, while a long term impact is on the company's net worth since the economic value of the assets, liabilities and off-balance sheet exposures are affected. While assessing interest rate risks, signals given to the market by RBI and government departments from time to time and the financial industry's reaction to them shall be continuously monitored.

Due to the very nature of financial services, the company is exposed to moderate to higher Interest Rate Risk. This risk has a major impact on the balance sheet as well as the income statement of the company. Interest Rate Risk arises due to:

- i) Changes in regulatory or market conditions affecting the interest rates
- ii) Short term volatility
- iii) Prepayment risk translating into a reinvestment risk
- iv) Real interest rate risk.

In short run, change in interest rate affects Company's earnings (measured by NII or NIM) and in long run it affects Market Value of Equity (MVE) or net worth. It is essential for the company to not only quantify the interest rate risk but also to manage it proactively. The company mitigates its interest rate risk by keeping a balanced portfolio of fixed and variable rate loans and borrowings. Further company carries out Earnings at risk analysis and maturity gap analysis at quarterly intervals to quantify the risk.

**Indiabulls Commercial Credit Limited****Notes to financial statements for the year ended March 31, 2022****Note - 39 (continued...)****Interest Rate sensitivity**

The following table demonstrates the sensitivity to a reasonably possible change in interest rates in respect of borrowings subject to variable interest rates (all other variables being constant) of the Company's statement of profit and loss:

Particulars	Basis Points	Amount Rs. in Crores	
		Effect on Profit before tax and Equity for the year ended March 31, 2022	Effect on Profit before tax and Equity for the year ended March 31, 2021
<b>Borrowings</b>			
Increase in basis points	+25	8.27	(12.29)
Decrease in basis points	-25	(8.27)	12.29
<b>Loans</b>			
Increase in basis points	+25	32.04	33.64
Decrease in basis points	-25	(32.04)	(33.64)

**(ii) Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign currency rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the foreign currency borrowings taken from banks through the FCNR route.

The Company follows a conservative policy of hedging its foreign currency exposure through Forwards and / or Currency Swaps in such a manner that it has fixed determinate outflows in its function currency and as such there would be no significant impact of movement in foreign currency rates on the company's profit before tax (PBT) and equity.

**(iii) Equity Price Risk**

The Company's exposure price risk arises from investments held and classified in the balance sheet either at fair value through other comprehensive income or at fair value through profit or loss. To manage the price risk arising from investments, the Company diversifies its portfolio of assets .

**(D) Operational Risk**

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and system or from external events.

Operational risk is associated with human error, system failures and inadequate procedures and controls. It is the risk of loss arising from the potential that inadequate information system; technology failures, breaches in internal controls, fraud, unforeseen catastrophes, or other operational problems may result in unexpected losses or reputation problems. Operational risk exists in all products and business activities.

The company recognizes that operational risk event types that have the potential to result in substantial losses includes Internal fraud, External fraud, employment practices and workplace safety, clients, products and business practices, business disruption and system failures, damage to physical assets, and finally execution, delivery and process management.

The Company cannot expect to eliminate all operational risks, but it endeavours to manage these risks through a control framework and by monitoring and responding to potential risks. Controls include effective segregation of duties, access, authorisation and reconciliation procedures, staff education and assessment processes, such as the use of internal audit.

**Notes to financial statements for the year ended March 31, 2022**

**Note - 40**

**Leases**

**(i) Leases where the Company is a Lessee**

The Company has lease contracts for various office premises used in its operations. Leases of office premises generally have lease terms between 11 months to 15 years. The Company's obligations under its leases are secured by the lessor's title to the leased assets. Generally, the Company is restricted from assigning and subleasing the leased assets. The Company also has certain leases of office premises with lease terms of 12 months or less. The Company applies the 'short-term lease' recognition exemptions for these leases.

(b) Leases are shown as follows in the Company's balance sheet and Statement of profit and loss:

Set out below are the carrying amounts of right-of-use assets recognised and the movements during the period:

Particulars	Building - Office Premises
	Amount Rs. In Crore
<b>Opening balance as at 1 April 2020</b>	5.37
Addition	-
Deletion (Terminated during the year)	(0.34)
Depreciation expense	1.36
<b>Closing balance as at March 31, 2021</b>	<b>3.67</b>
Addition	0.07
Deletion (Terminated during the year)	-
Depreciation expense	0.73
<b>Closing balance as at March 31, 2022</b>	<b>3.01</b>

Set out below are the carrying amounts of lease liabilities (included under Borrowings (Other than Debt Securities)) and the movements during the period:

Particulars	Amount Rs. In Crore
<b>Opening balance as at 1 April 2020</b>	<b>5.72</b>
Additions	(0.37)
Deletion (Terminated during the year)	0.38
Accretion of interest	(1.30)
Payments	(0.60)
Change due to modification of leases	-
<b>As at March 31, 2021</b>	<b>3.83</b>
Additions	0.07
Deletion (Terminated during the year)	-
Accretion of interest	0.32
Payments	(0.88)
Change due to modification of leases	-
<b>As at March 31, 2022</b>	<b>3.34</b>
Current	0.57
Non-current	2.78

**(c) Amounts recognized in the Statement of Profit and Loss**

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
	Amount Rs. In Crore	
Depreciation expense of right-of-use assets	0.73	1.36
Interest expense on lease liabilities	0.32	0.38
Gain on termination/modification of leases	-	(0.64)
Expense relating to short-term leases (included in other expenses)	0.02	0.10
<b>Total amount recognised in profit or loss</b>	<b>1.07</b>	<b>1.20</b>

During the year the Company had total cash outflows for leases of Rs.0.88 crores (Previous year Rs 0.60 crores)

## Indiabulls Commercial Credit Limited

### Notes to financial statements for the year ended March 31, 2022

#### Note - 41

##### Transfers of financial assets

###### Transfers of financial assets that are not derecognised in their entirety

Securitisations: The company uses securitisations as a source of finance. Such transactions resulted in the transfer of contractual cash flows from portfolios of financial assets to holders of issued debt securities. Such deals resulted in continued recognition of the securitised assets since the Company retains substantial risks and rewards.

The table below outlines the carrying amounts and fair values of all financial assets transferred that are not derecognised in their entirety and associated liabilities.

Securitisations	Amount Rs. In Crore	
	As at March 31, 2022	As at March 31, 2021
Carrying amount of transferred assets measured at amortised cost	1,613.13	141.86
Carrying amount of associated liabilities	(1,584.93)	(139.87)

The carrying amount of above assets and liabilities is a reasonable approximation of their respective fair values

###### Assignment Deals

During the year ended March 31, 2022, the Company has sold certain loans (measured at amortised cost) pursuant to assignment deals, as a source of finance. As per the terms of such deals, since the derecognition criteria as per IND AS 109 are met, including transfer of substantially all the risks and rewards relating to assets being transferred to the buyer, the assets have been derecognised from the books of the Company.

The table below summarises the details of the derecognised loans (measured at amortised cost) and the consequent gain upon derecognition:

Loans (at amortised cost)	Amount Rs. in Crores	
	For the year ended March 2022	For the year ended March 2021
Amount of derecognised financial assets	1,742.65	32.32
Gain/(loss) from derecognition	19.07	1.46

Since the Company has derecognized the above loan assets in entirety, the whole of the interest spread at the present value (discounted over the expected life of the assets) is recognised on the date of derecognition itself as interest-only strip receivable and corresponding profit on derecognition of financial assets is recognized in the Statement of Profit and Loss.

#### Note - 42

##### Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The Company's capital management objectives are:

- to ensure the Company's ability to continue as a going concern
- to maintain a higher capital base than the mandated regulatory capital at all times
- to maintain an optimal capital structure to reduce cost of capital
- to provide an adequate return to shareholders

The Company monitors capital using a capital adequacy ratio as prescribed by the RBI guidelines. Refer note 45 for details.

#### Note - 43

##### Fair value measurement

As per Ind AS 107, 'Financial Instruments: Disclosures', the fair values of the financial assets or financial liabilities are defined as the price that would be received on sale of asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Financial assets and financial liabilities are measured at fair value in the financial statements and are grouped into three Levels of a fair value hierarchy. The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities and lowest priority to unobservable inputs. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

**Indiabulls Commercial Credit Limited**

**Notes to financial statements for the year ended March 31, 2022**

**Note - 43 (continued...)**

**(i) Valuation principles**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using a valuation technique.

**(ii) Valuation governance**

The Company's process to determine fair values is part of its periodic financial close process. The Audit Committee exercises the overall supervision over the methodology and models to determine the fair value as part of its overall monitoring of financial close process and controls. The responsibility of ongoing measurement resides with business units. Once submitted, fair value estimates are also reviewed and challenged by the Risk and Finance functions.

**(iii) Assets and liabilities by fair value hierarchy**

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy:

Amount Rs. in Crores				
	March 31, 2022

**Indiabulls Commercial Credit Limited**

**Notes to financial statements for the year ended March 31, 2022**

**Note - 43 (continued...)**

**(iv) Valuation techniques**

**Debenture and Bonds**

Fair value of these instruments is derived based on the indicative quotes of price and yields prevailing in the market as at reporting date and are classified as Level 2.

**Mutual Funds**

Open ended mutual funds are valued at NAV declared by respective fund house and are classified under Level 2.

(v) There have been no transfers between Level 1, Level 2 and Level 3 for the year ended March 31, 2022, March 31, 2021.

**(vi) Fair value of financial instruments not measured at fair value**

Set out below is a comparison, by class, of the carrying amounts and fair values of the Company's financial instruments that are not carried at fair value in the financial statements. This table does not include the fair values of non-financial assets and non-financial liabilities.

		Amount Rs. in Crores

**(vii) Valuation methodologies of financial instruments not measured at fair value**

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the company's financial statements. These fair values were calculated for disclosure purposes only. The below methodologies and assumptions relate only to the instruments in the above tables.

**Debt Securities & Subordinated liabilities**

These includes Subordinated debt, secured debentures, unsecured debentures. The fair values of such liabilities are estimated using a discounted cash flow model based on contractual cash flows using actual or estimated yields and discounting by yields incorporating the counterparties' credit risk. These instrument are classified in Level 2.

**Assets and Liabilities other than above**

The carrying value of assets and liabilities other than investments at amortised cost, debt securities and subordinated liabilities represents a reasonable approximation of fair value.

**(c) Disclosures on Risk Exposure in Derivatives**
**Qualitative Disclosure**

In the ordinary course of its business, the Company is exposed to risks resulting from changes in foreign currency exchange rates. It manages its exposure to these risks through derivative financial instruments. It uses derivative instruments such as forwards to manage these risks, in terms of its policy as approved by its Board of Directors which is consistent with its risk management strategy. These derivative instruments reduce the impact of both favourable and unfavourable fluctuations. The Company's risk management activities are subject to the management, direction and control of Risk Management Committee of its Board of Directors, which reports to the Board on the scope of its activities. The Company has appropriately segregated the functions and activities pertaining to its derivative transactions. All derivative transactions entered into by the Company are reported to the Board, and the mark-to-market gain/loss on its portfolio is monitored regularly by the senior management. As at March 31, 2022, the Company has no outstanding forward exchange contract (previous year : Nil) to hedge foreign currency risk.
